## Selection of Thesis Topic and Advisor

**Student chooses a thematic field of the Bachelor Thesis (BT) from the list of topics offered by internal and external faculty.** This process takes place during the third semester of studies.

In January, the **Academic Council meets and recommends thesis advisors for the selected topics.**

In exceptional cases, if student's preferred topic does not fall within the range of topics offered, student can suggest their own topic or thesis advisor. However, an exception is subject to approval of the Academic Council, as is the approval of all advisors and topics.

**Student reports the chosen topic and assigned thesis advisor to the Studies Coordinator ([kusa@bisla.sk](mailto:kusa@bisla.sk)).** By **March 15**, student submits a **brief preliminary proposal** for the thesis (thesis prospectus) along with selected key sources of literature.

Prior to **May 1**, student and the thesis advisor **meet at least once** in order to specify the topic of BT, to define the primary scope of literature, to suggest a schematic outline of BT and to agree on the work process during summer months.

During the **May Term**, the student develops the full thesis proposal. By **the end of June**, the Academic Council deliberates on the full thesis proposals.

## Topic and Scope of Research

Topic of BT must relate to the field of study of political science and related disciplines (humanities and social sciences). At the same time, a direct link between the specialization of the thesis advisor and the topic chosen must exist.

If a student is declaring a minor in some discipline, the bachelor thesis should correspond with the selected minor. However, bachelor thesis is expected to build on the subjects, topics, literature studied in the various courses taken at BISLA.

A bachelor thesis must have a **theoretical foundation**. Student is to manifest knowledge of the literature in the studied field and ability to apply theoretical concepts to practical examples. Empirical thesis should also conduct **original research**, accompanied by **interviews, surveys, discourse analysis, archival research, field observation, etc.**

**Each student is expected to carry out interviews/consultations as part of their research.** Empirical studies demand interviews with experts, policymakers, or subjects of research. Theoretical works invite interviews with scholars and experts on the topic. **Theoretical theses should consult at least two such scholars other than the thesis advisor, and empirical theses three or more experts or practitioners.**

**Length of BT is between 30 to 40 norm pages (1800 characters per page with spaces).** For detailed information concerning the format of BT see: The Directive of the Rector of BISLA Regarding the Format of the Bachelor Thesis on [www.bisla.sk](http://www.bisla.sk) (in Slovak language).

## Cooperation of thesis advisor and the student

During the Fall semester of the second year of studies, student chooses the topic of BT from the list of suggested topics offered by faculty. Based on this selection, **the Academic Council assigns a thesis advisor**. Afterwards, student reaches out to the advisor, and, having agreed on cooperation, student contacts the Studies Coordinator and registers the thesis advisor and the topic of BT.

During the Spring semester of second year, student assembles relevant literature and completes other tasks stemming from the agreement with the thesis advisor. By **March 15, a preliminary prospectus** of the thesis is submitted to the Academic Council for review, describing the problem, the relevant theory, methodology, expected findings, and relevance of the research project.

At the end of the May Term of their second year of studies, student elaborates and submits a **detailed Bachelor Thesis Proposal** for approval by the Academic Council

**Precise title of the BT**, signed by the thesis advisor, is submitted by the student to the Registrar Office **by December 15.**

**Binding date for submission of BT is January 15 (to the thesis advisor and Registrar's Office) in hard cover binding and in PDF.**

## Rights and Duties of Thesis Advisor

Thesis advisor is the main superintendent of student in the process of writing BT. Thesis advisor consults both content and structure of BT with the student. They direct the student methodologically in the process of research.

### Meetings with the student

- During the Fall semester of the third year, the thesis advisor and student meet **once a week**; In case student fails to attend the meetings twice, thesis advisor informs the Studies Coordinator. In case it is not possible for the thesis advisor to meet with the student once a week, or in case of a longer term absence caused by travel commitment or heavy workload etc., thesis advisor indicates an alternative plan of cooperation, which has to be consulted with the Studies Coordinator.
- Guiding the student in **choosing and specification of the thesis topic**;
- Helping with the **selection of literature**;
- Guiding student in **choosing methodological approach** and in the process of collection of primary and secondary sources and data;
- Continuous **evaluation** of the student: student marks the dates and takes a brief note on the content of meetings during the Fall semester of the third year, using the attached Attendance Form.
- It is the student's responsibility to carry the attendance sheet and make sure it is being filled out, signed, and submitted to the Registrar's Office along with the thesis.
- In case student does not keep the time table of meetings or of the binding terms for meeting the criteria of admission to the defense of the BT (See Attachment n.1), thesis advisor has the right to withdraw from the cooperation, after consulting this step with Coordinator of Studies;
- Advisor checks the authenticity of BT and guides student on the usage of citations and sources;
- Advisor is remunerated for leading the BT according to a work agreement signed between BISLA and the advisor. It is signed after BT is submitted to the Registrar's Office in its final form;
- After BT is submitted, **Advisor writes evaluation of the bachelor thesis**, which is submitted to the Study Department **no later than February 28**.

## The Rights and Duties of the Student

- **Student bears full responsibility for keeping the time table** and for meeting the requirements of admission to the defense of BT;
- **It is the student's responsibility to meet with the thesis advisor regularly**; in case it is not possible for the student to come to a meeting, student agrees with the advisor on an alternate date; in case the advisor is not available – if advisor cancels a meeting twice or more, or if they are abroad for a long-term period and do not communicate with the student, student contacts the Studies Coordinator;
- Student is responsible for filling out the Attendance Sheet (attached) – making a brief note on the content of the meetings, which will be reviewed and signed by the thesis advisor before turning the sheet in with the bachelor thesis to the Registrar Office.
- Meeting the time table set by the thesis advisor and in this Directive; Fulfillment of partial tasks according to agreement with the thesis advisor;
- Student must **carry out an original and extensive research** of literature and data under the direct supervision of the advisor;
- **Student is responsible for the final product** (BT) and carries any pertinent disciplinary action in case of not meeting the set criteria or breaking the given decrees.

## **The Format of Citations and the List of References**

An overview of the basic rules of formatting and citation in the APA style (American Psychological Association), which is required at BISLA, is stated in the Directive on the Format of BT or at Purdue Online Writing Lab: [APA STYLE](#)

## **Plagiarism**

The work of the student must be authentic and must respect the copyrights of the printed, electronic or audiovisual sources used. The BISLA Plagiarism Directive pertains to BT, disciplinary action included (up to the dismissal from studies at BISLA). BTs are checked multiple times in the process of writing. The work is subject to the check by the thesis advisor, by the Registrar's Office when the draft is handed in and by the Central Registrar of the Bachelor Theses when entered into the database of the Ministry of Education after completion of the work.

Theses are uploaded to **the Central Registry of Bachelor Theses** at the Ministry of Education, which processes all theses through a plagiarism detection software and generates a document stating the originality of the text. If more than **10%** of the text is identical with other sources, the advisors writes a brief statement recommending the next course of action – recommendation to forward the thesis towards the thesis defense, or to convene a Disciplinary Commission to investigate a potential case of plagiarism.
