Why choose BISLA?

BISLA is a young and vital institution with growing potential.

The college is the only one of its kind in Central Europe, located in the heart of Bratislava.

We combine the advantages of the one-on-one approach with group-based learning.

BISLA faculty and students strive for high academic standards.

BISLA has no more than 60 students and about a dozen faculty and staff. They create an atmosphere both familiar and professional where everyone matters. In its two buildings, there are several cozy classrooms, libraries, well-equipped computer rooms and some sporting facilities. A charming garden is attached to the college's premises, a pleasant space to study and to hang out.

The college regularly organizes public debates with experts, artists and intellectuals, and students are involved in journals, conferences, film nights, etc., all of which enrich the student's cultural and intellectual experiences while studying here.

How does BISLA work?

Our liberal arts curriculum fosters well rounded, skills equipped, independently minded individuals during their bachelor-level studies. We seek to help students become responsible citizens, and to develop an understanding of the world that is at once multi-faceted, broad and in-depth.

Electives and directed studies enable students to tailor their curriculum to their interests and needs. Most of the courses at BISLA are in English and are open to exchange students who meet the basic requirements. See the Course Catalogue for details.

BISLA courses

"The main lesson I took away was the ability to consider things in context, analyze them critically, and to not take anything for granted. I gained the ability to express and to defend my point of view. Besides that, I had a chance to meet truly unique people during the three wonderful years of my studies at BISLA."
